**GOLDEN YEARS FLOORING**

**Bakers Creek** offers high-end engineered wood floors. The Heart of Pine series, featuring a golden grain and knotty texture, is a product inspired by floors found in centuries old southern homes. Other styles include Cypress, Cherry, Maple, Pecan, Walnut and Mesquite. The product is available in 5- to 7-in. widths and up to 5-ft. long planks. The structurally-engineered wood flooring will last for generations, according to the company. Visit [www.bakerscreekfloors.com](http://www.bakerscreekfloors.com) or Circle 318

**MOSAIC REPRODUCTIONS**

Artists at **Hakatai** can transform any drawing into a hand-cut, hand-aligned fine art mosaic mural. Each custom mural is a unique work of art. The designers have an unlimited palette of colors and tile types to choose from, including Venetian glass, Smalti, gold, marble and stone. The materials and craftsmanship combined create striking simulations of the various colors, textures and detailed shadings of the original artwork. Ideal for a wide range of applications. Visit [www.hakatai.com](http://www.hakatai.com) or Circle 317
